DIMLAJ. A TOUCH OF ART

The origin of our name expresses the beauty of ancient Arabic. It means both mastering the creation of jewelry and the perfection of its creative arts.

Our products are created using the highest quality materials, producing authentic designs and enriching homes by adding an elegant touch to food presentations and hospitality displays.

About Our STORY

Imagine being in a jewelry workshop and you are turning a precious jewel between your fingers, admiring its mysterious colors and mesmerized by its sparkle and the precision of its details. You see a steady older man whose face is filled with wrinkles.

You instantly realize that he is the workshop's owner and that he has spent his entire life in this trade. At first glance, this man appears to be sharp and elegant, but when you contemplate the wrinkles in his face, you see the reflection of hard work and effort he has put in throughout the years. You are absolutely charmed with a bright smile and a welcoming eye.

OUR STORY

You can't help but light up in the face as you look at the jewel in your hand and the smile filling up the man's warm face. It is only within a moment that you realize how hard he has worked in order to reward himself with a look combining both amazement and happiness like the one on your face.

OUR STORY

An amazement resulting from the jewel's beauty and happiness resulting from the older man's warm welcoming visage. This is our job, duty and ultimate goal at Dimlaj. To work long and hard and offer the best quality products for our customers.
